SUMMARY

I'm Shubham, a tech enthusiast passionate about web development, cloud computing, DevOps, AI/ML, and data science. As SECT's Web Dev Lead, I build impactful projects, mentor developers, and explore innovations. I love solving complex problems and creating tech solutions that drive real change!

EXPERIENCE

Web Development Lead

Sandip University SECT Club

📅 09/2024 - Present   📍 Nashik

A club dedicated to empowering students with technology skills.

- Hosted 5+ coding workshops on web development, training over 70 students in modern frameworks and best practices, leading to a 30% increase in project completion rates.
- Mentored 20+ juniors, boosting coding skills and project delivery efficiency by 40%.
- Built dynamic dashboards for 5+ roles, cutting data retrieval time by 50%.
- Boosted site speed by 30% and strengthened security, reducing vulnerabilities by 40%.

EDUCATION

B Tech in Computer Science

Sandip University

📅 07/2023 - Present   📍 Nashik

- Data Structures & Algorithms	**GPA**
- Web Development	**7.80** / 10.0
- Cloud Computing & DevOps	
- Artificial Intelligence & Machine Learning	
- Computer Networks & Cybersecurity	
- Operating System	

TRAINING / COURSES

Data Structures & Algorithms
Data Structures & Algorithms.

Web Development
Web Development.

Cloud Computing & DevOps
Cloud Computing & DevOps.

Operating Systems
Operating Systems.

Computer Networks & Cybersecurity
Computer Networks & Cybersecurity.

CERTIFICATION

• Participation in NASA Space Apps Hackathon
https://shubhamresume.wuaze.com/certificate/NS63856

• Machine Learning
https://shubhamresume.wuaze.com/certificate/ML125362

• Fundamental Of Generative AI
https://shubhamresume.wuaze.com/certificate/FG35685

• Agile Project Management
https://shubhamresume.wuaze.com/certificate/PM45685

• Design Thinking
https://shubhamresume.wuaze.com/certificate/DT86957

INTERESTS

💡 **AI/ML & Data Science**
Passionate about data-driven solutions and AI-powered systems for optimization.

💡 **AI in Space Exploration**
Interested in AI-driven satellite imaging, data analysis, and autonomous space missions.

KEY ACHIEVEMENTS

⭐ **Smart Global Pest Alert Network Project**
Developed comprehensive dashboards for farmers, increasing user engagement by 60% and facilitating quicker responses to agricultural trends.

☆ **Web Development Leadership**
Led workshops and projects, building high-performance websites and mentoring peers in coding best practices.

SKILLS

Programming Languages
Python, Java, C, C++, Java

Web Development
HTML, CSS, JS, PHP, Bootstrap

DBMS
SQL, MYSQL, MongoDB, Data Structure, Algorithms, problem-Solving

Software & Emerging Technologies
Git, GitHub, GitLab, Flutter, Android, Figma, Photoshop, Arduino, Raspberry Pi

LANGUAGES

French   Intermediate

English   Advanced

Hindi   Proficient

Marathi   Native

PROJECTS

Internet Café Management System.

📅 05/2022 - 09/2022

Internet Café Management System for Improving Customer Engagement

- Developed interactive dashboards for real-time agricultural insights, integrating satellite imagery, weather data, and AI-driven pest predictions using Python, JavaScript, and SQL.

Smart Global Pest Alert Network

📅 09/2024 - 10/2024

A project aimed at improving agricultural data response.

- Developed interactive dashboards for real-time agricultural insights, integrating satellite imagery, weather data, and AI-driven pest predictions using Python, JavaScript, and SQL.
